Education

Ho Chi Minh City University of Technology - HCMUT VNUHCM

Bachelor of Computer Engineering

09/2021 – 01/2026

Experience

Bosch Global Software Technologies Vietnam

Embedded Engineer Intern

Tan Phu, HCMC

04/2025 – Current

- Member of **Static Testing** team (MS/EAI-VM Department), using **Astree** and **Matlab** to test AUTOSAR systems.
- Joined AI Team to adapt LLM models for testcase generation and SiL report analysis.
- Implemented **GraphRAG** to reduce NLG hallucinations in AI applications.
- Contributed to evaluation by surveying and running experiments on benchmark datasets.

Viercycle

Embedded Systems Intern

Thu Duc, HCMC

04/2024 – 08/2024

- Designed and implemented a custom **UART-based** communication protocol between Display Screen and Controller.
- Worked in a cross-functional team with Agile/Scrum to deliver firmware updates.
- Developed and debugged firmware in C/C++ with **OpenOCD** and **NRF SDK**.
- Integrated and tested features on ESP32, Arduino Nano, and NRF52840 hardware.

Projects

GraphRAG Mini Pipeline

07/2025 – 08/2025

- Built an end-to-end pipeline from input text to graph-based retrieval to output.
- Reduced NLG hallucinations significantly.
- **Technologies:** Python, GraphRAG, ChromaDB, Neo4j, Local LLM Inference

Face Recognition with ESP32-CAM

01/2025 – 03/2025

- Developed face recognition with ESP32-CAM and lightweight detection algorithm.
- **Technologies:** C/C++, esp-idf, ESP32-CAM

Skills & Interests

- **Operating Systems:** Windows, Linux (Ubuntu, Pop_OS!, ArchLinux, Red Hat)
- **Programming Languages:** C/C++, Python, Bash
- **Version Control & Collaboration:** Git, Agile, Scrum

Certificates

- Neo4j & Generative AI Fundamentals – Neo4j
- The Arduino Platform and C Programming – Coursera
- IELTS Academic 6.5 – IELTS Official
